Heritage Institute of technology, Kolkata  
July 2013 - February 2018

### CONTACT

📍 Thakurnagar, West Bengal

### CAREER HISTORY

#### Software Development Engineer

Lead School | January 2022 - Present

- Full stack engineer in the team, frontend heavy. Tech Stack: ReactJS, NextJs, NodeJs, TypeScript, MongoDB, ExpressJs, HTML, CSS, JSON, Redux-Saga, AntDesign, Tailwind CSS.
- **Genie Web:** Built the web app from scratch which helps teachers and admins manage extracurricular activities for students. It increased our revenue significantly during the holiday season.
- **Genie WebView:** A lightweight mobile app section for students to join extracurricular activity sessions. Used HTML as data and rendered them as web views as clickable content with various on-click actions. Responsible for creating highly reusable components & hooks in Next.js.
- **Epsilon:** A web app to create and manage curriculums for Indian schools, irrespective of boards, academic year, class, etc. I worked on the blueprint and some other sections of this app. This app helped to improve the efficiency of schools by removing complications of creating a custom curriculum from scratch.
- **Assessment:** A web app that helps to create question papers for any class of any Indian school. I worked on cloning a question paper and search functionality. This app increased the productivity of teachers.

### PROJECTS

#### Dine-out Clone | 🍷

A web application to book restaurants.

##### Features:

- Book restaurant at a particulate date and time.
- Login with OTP.

**Tech Stack:** MERN | Redux | Figma | Firebase

##### Areas of responsibility:

- Designed the whole system and built the backend.
- Implemented Redux and react-routing.
- Did the functionalities from the restaurant page to confirm the booking.

A collaborative project built by a team of 6 executed in 6 days.

#### MyGlamm-with-Backend | 🛍️

A web application to buy fashion products.

##### Features:

- Sign-up/Log-in with authentication.
- Full flow of e-commerce website.

**Tech Stack:** Node.js | MongoDB | Express.js | EJS

##### Areas of responsibility:

- Built authentication and integrated it with the frontend.
- Laid out the database schema and built the REST API for the whole project.

A collaborative project built by a team of 4 executed in 7 days.
